

RMIT University [1]

[HTTP://WWW.RMIT.EDU.AU/RESEARCH/DISASTER-RESEARCH-NETWORK](http://www.rmit.edu.au/research/disaster-research-network) [2]

The RMIT Disaster Research Networks brings together researchers to examine current approaches to managing responses to natural and human-induced disasters.

It aims to build disaster resilience across the Asia Pacific region by connecting communities with industry, government and experts in mapping, detection, warning, infrastructure, risk, modelling, planning, post-disaster reconstruction and the social sciences.
