

New South Wales State Emergency Service [1]
[HTTP://WWW.SES.NSW.GOV.AU/](http://www.ses.nsw.gov.au/) [2]

The NSW State Emergency Service (SES) is an emergency and rescue service dedicated to assisting the community. It is made up almost entirely of volunteers, with 229 units located throughout New South Wales. The units comprise of approximately 10,000 volunteer members. While its major responsibilities are for flood and storm operations, the SES also provides the majority of general rescue effort in the rural parts of the state. This includes road accident rescue, vertical rescue, bush search and rescue, evidence searches and other forms of specialist rescue.
