

Direction Générale De La Sécurité Civile Et De La Gestion Des Crises

French Firefighting doctrine

An integrated and evolutive system

PREVENTING FIRES

CONTROL THE RISING FIRES

AVOID CATASTROPHIC SCALE

REHABILITATE BURNT AREAS

SOMMAIRE

INNOVATION

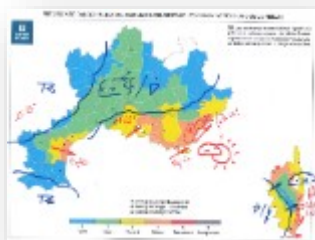

TRAINING

PREVENTING FIRES

❖ by **identifying and treating the causes**

❖ by **informing and raising public awareness about the risk of fire**

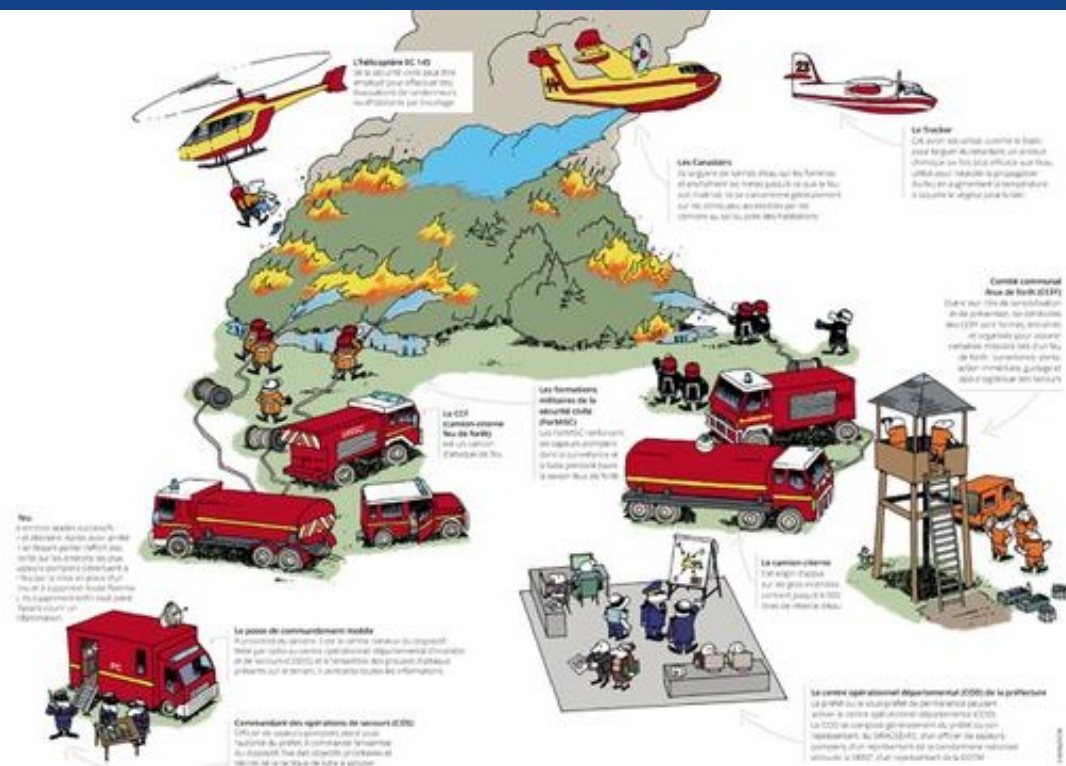

❖ by **dissuasive surveillance**

❖ by **estimating and forecasting risk**

CONTROL THE RISING FIRES

❖ by **land development** to make natural areas less vulnerable

❖ the **rapid attack** of emerging fires

AVOID CATASTROPHIC SCALE

❖ by the effectiveness of the fire-fighting effort

❖ by preserving the safety of people and property

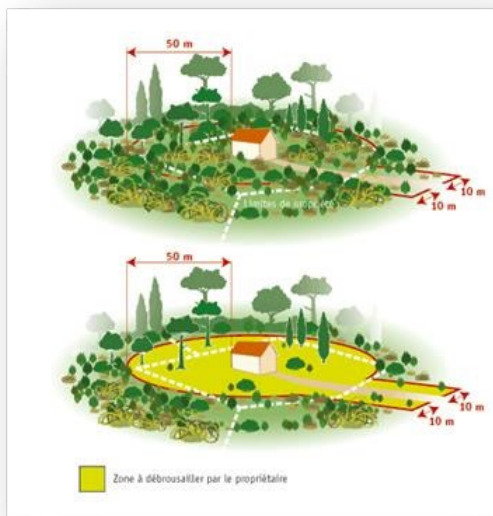

❖ by the management of a crisis situation

REHABILITATE BURNT AREAS

- ❖ by **redeveloping the burnt areas**, taking into account, first and foremost, the elimination of the causes that led to the disaster.

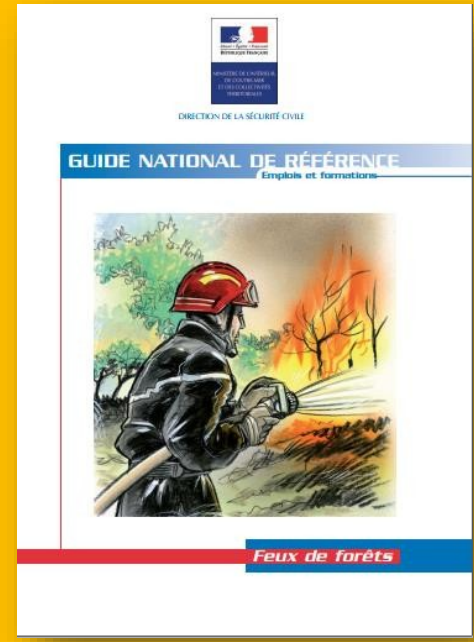

TRAINING

Doctrinal Corpus
