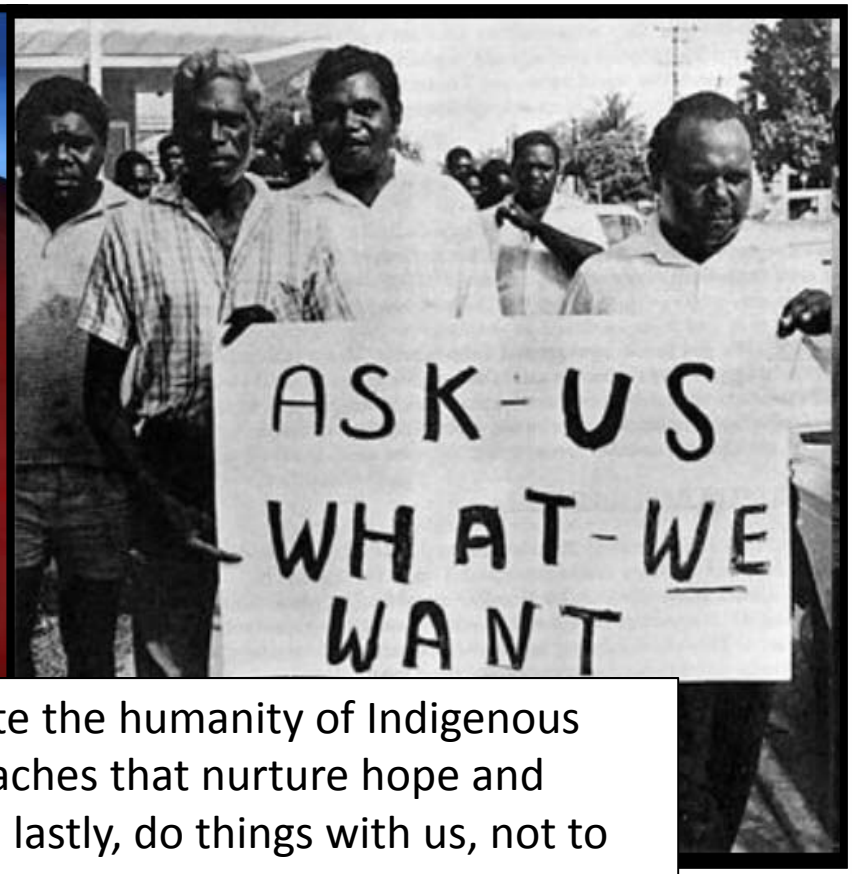
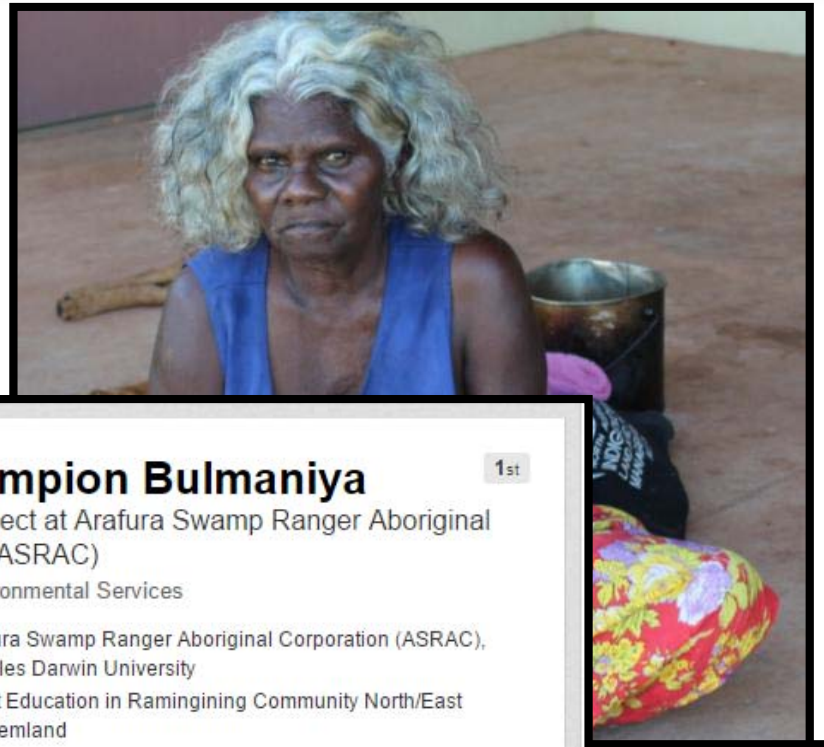
RECAP 1: BUILDING COMMUNITY RESILIENCE IN REMOTE NORTH AUSTRALIA

- Large ‘action research’ component.
  - Transform current fire/emergency/land mgt
- Build on Existing Capacity / Capability
- Nexus between:
    - Fire / emergency / land mgt &
    - Payment for Environmental Services
    - Traditional knowledge
    - North Australian ‘world view’

RECAP 2: TRAINING FOR REMOTE ABORIGINAL COMMUNITIES



"Firstly, acknowledge, embrace and celebrate the humanity of Indigenous Australians. Secondly, bring us policy approaches that nurture hope and optimism rather than entrench despair. And lastly, do things with us, not to us." Chris Sarra



Otto Campion Bulmaniya
